Save the Children

2022 UPDATE

# GLOBAL BRAND GUIDELINES

# OUR VISUAL IDENTITY

We have created a number of unique design elements which, together, deliver a distinct visual identity for Save the Children.

# OUR DESIGN ELEMENTS

## OVERVIEW

### Logo

Save the Children

### Headline and logo holding device

**Lato**

Light Regular Italic Bold (Bld. Ital) Black (Blk. Ital)

# LOGO

The word mark of our logo has been updated using the Lato font—available from Google (*fonts.google.com*)

**Please ensure you use the new artwork.**

Always use the whole logo (the brand mark and the word mark) are never to be used separately. **Never recreate or rearrange it yourself.**

## DEFAULT LOGO IS ENGLISH

**Color Positive Horizontal logo**

Save the Children

**Brand Mark** **Word Mark**

**Color Positive Stacked logo**

Save the Children

## COLOR VARIANTS

Grey shown here for illustrative purposes only to make logos legible.

Save the Children

**Color Negative Horizontal logo**

Save the Children

**White Negative Horizontal logo**

Save the Children

**Black Positive Horizontal logo**

## CLEAR SPACE AREA

Save the Children

- An area around the logo must be kept free of all other graphic elements.
- The logo can sit on imagery, but avoid any busy areas so it remains visible.

## EXCEPTION: DIGITAL USE ONLY

- For alignment with digital web browser standards, the brand mark of our logo can be used in isolation as a favicon.

### FAVICON

Minimum size is **16px by 16px**.

16px

16px

# APPROVED TRANSLATIONS

## The default approach for all members and programmes is to use the logo in English.

You can use an approved and officially translated version of the logo if it's required to communicate in a local language. This could be because:

- English is not readily understood by your audience.
- Using English could have a negative impact on perceptions of Save the Children in your country.
- You have already been using and building awareness under a translated name.

DON'T use a translated version of the logo without approval.

## DEFAULT LOGO IS ENGLISH

Save the Children

## APPROVED TRANSLATED EXAMPLES

Red Barnet

The logo above is for Red Barnet in Denmark. It has been updated with a new word mark to match the English version.

Barnaheill

The logo above is for Barnaheill in Iceland. It has been updated with a new word mark to match the English version.

Language translation of our logo is only done for compliance with country market regulations. If you need one developed, please contact globalbrand@savethechildren.org.uk

# COLOR

## PRIMARY COLOR PALETTE

These colors are used prominently.

**RED**

Pantone® 485
c7 m97 y100 k1
r218 g41 b28
Hex DA291C
c0 m100 y100 k0

**DARK RED GRADIENT**

Dark Red for Gradient only*
c23 m100 y100 k18
r165 g20 b20
Hex A51414
c0 m100 y100 k50

**USE THESE VALUES:**
For better color reproduction on lower quality paper like newsprint.

### DIGITAL USAGE

**WHITE**

White
c0 m0 y0 k0
r255 g255 b255
Hex FFFFFF

**BLACK**

Black
c0 m0 y0 k100
r34 g34 b33
Hex 222221

**BISCUIT 25%**

Hex F3F2EE
Use to differentiate sections of content

**DARK GREY**

Hex 4A4F53
Use for icons & copy

**LIGHT GREY**

Hex 999999
Use for icons & copy

### Our lead brand color is red.

- White adds functional support.
- Black is used with restraint. It can be tinted back as far as 50% for text (not for headlines).
- DON'T use large amounts of white text on red backgrounds, as it is less easy to read.

## SECONDARY COLOR PALETTE

These colors support the primary color palette as highlight colors only.
*Example use – annual report pages, website navigation, charts and diagrams.*

**BISCUIT**

Pantone® 7534
c5 m5 y15 k8
r209 g204 b189
Hex D1CCBD

**PLUM**

Pantone® 484

Hex F6B0BD

**PURPLE**

Pantone® 320
c37 m48 y0 k0
r174 g144 b195
Hex AE90C3

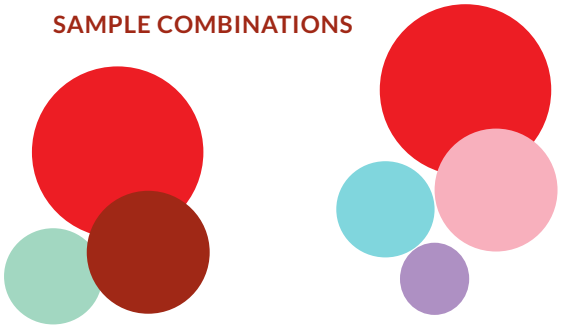
- The secondary color palette is used less prominently to support communication targeted at adult audiences.
- Content produced directly for children's engagement can prominently display the secondary palette colors.

## TONE AND SUBTLETY

Extend appearance of color through variation of hue intensity.
Color selections should always be made with the intended audience in mind.

**100%** **50%** **20%**

### SAMPLE COMBINATIONS



- Apply secondary colors in subtle tones for communicating with adult audiences.
- You don't need to use ALL available colors in every asset produced. Use smart color combinations for greater impact.

# TYPOGRAPHY

Please use the following typefaces.

## FOR HEADLINES

- We use **OSWALD** for main headlines.
- Headlines can be set in upper case or in sentence case.

**OSWALD**

Light Regular Medium Semi Bold Bold

Standard

## FOR ALL OTHER TEXT

- We use **LATO** for all other text – sub-headings, body copy and any small text, such as captions or page numbers.

**Lato**

Light Regular Italic Bold Regular Italic Bold Italic

Standard

## DIGITAL USAGE EXCEPTION

- When it is not possible to implement the brand fonts due to technical limitations such as in email, please use Arial as the default font.

## DIGITAL API

- For crafting consistent digital experiences, please embed the brand fonts during development.

### SOURCE

Download these fonts at:
fonts.google.com

### EXAMPLE EMBED CODE FOR DIGITAL APPLICATION

```
<link rel="preconnect" href="https://fonts.googleapis.com">
<link rel="preconnect" href="https://fonts.gstatic.com" crossorigin>
<link href="https://fonts.googleapis.com/css2?family=Lato&display=swap" rel="stylesheet">
```

# HEADLINE HOLDING DEVICE

The logo should always be positioned prominently. We are proud of it.

It should be placed at the end of the headline as a call to action, or before the headline.

- The logo sits underneath or above the headline.
- Alternative position is far right of the headline (when vertical space is limited).
- When we integrate the logo and headline, the logo sits on a white background.
- Use the Color Positive Horizontal logo.

## LOGO BELOW HEADLINE – LEFT OR RIGHT ALIGNED

LOGO RANGED RIGHT WITH HEADLINE
Save the Children
Right aligned

LOGO RANGED LEFT WITH HEADLINE
Save the Children
Left aligned

## HORIZONTAL ALIGNMENT

When the logo is below the headline, it should be left or right aligned with the bottom of the headline.

When the logo is above the headline, the horizontal alignment is flexible, as shown below.

## LOGO ABOVE HEADLINE – FLEXIBLE POSITIONING

Save the Children
LOGO BEFORE HEADLINE

Save the Children
LOGO BEFORE HEADLINE

Save the Children
LOGO BEFORE HEADLINE

Save the Children
LOGO BEFORE HEADLINE

## WHEN VERTICAL SPACE IS LIMITED

LOGO AT END OF HEADLINE Save the Children

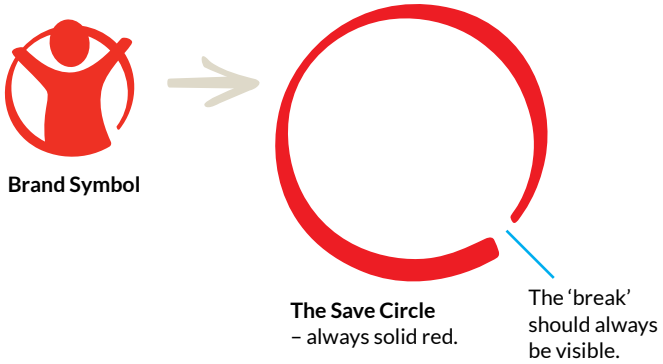
## DON'T

Grey denotes image area.

DON'T separate the logo from the headline.

# SAVE CIRCLE

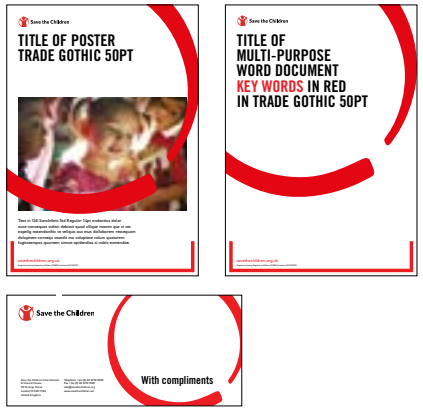
The Save Circle is our most distinct and ownable asset. It is derived from our brand symbol.



Never create your own Save Circle. Please use the artwork provided.

## The Save Circle is an 'emotional intensifier.'

Save Circle is primarily placed over an image.



In exceptional circumstances, the Save Circle can be used to highlight an area of predominant text.

- Its main function is to focus on the key area of the image to intensify the emotion.
- It is coloured in solid red (not a gradient or transparency).

## DON'T

**DON'T** obscure the face of a person/people at the focus of an image.

**DON'T** use it at a small size or fail to intensify the image.

**DON'T** use it as a graphic 'add-on'. This sizing feels like another logo.

When applied to headlines, the Save Circle should be positioned around the entire headline – not used as a decorative element.

SAVE CIRCLE

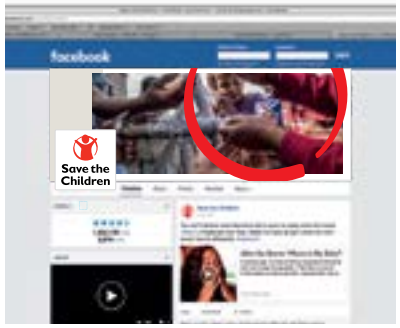
# WHEN TO USE IT

## CHOOSE PLACEMENTS THAT ENHANCE THE BRAND

The Save Circle makes a bold statement and should be used prominently. Placement in reports and printed material tend to work best.

Front covers

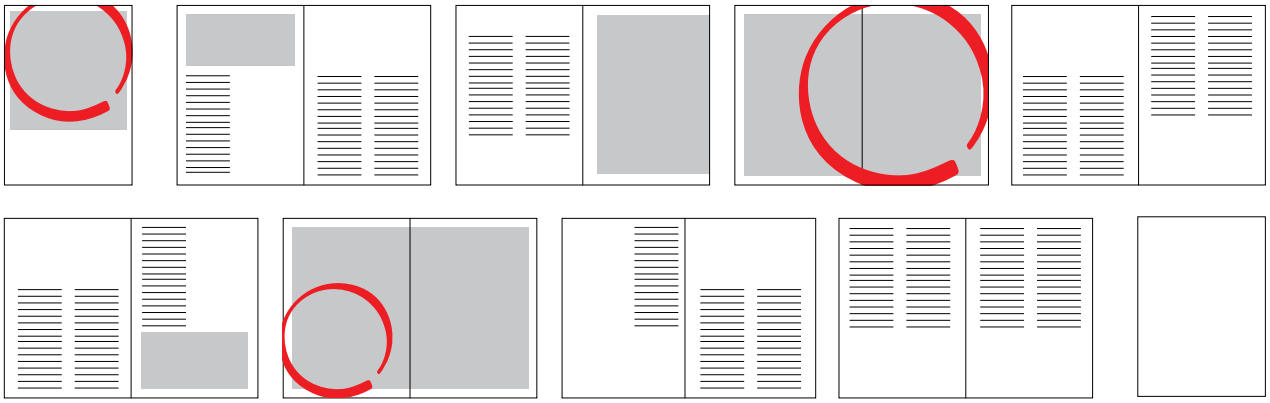
Brand advertising



Online landing pages

## USE WITH RESTRAINT

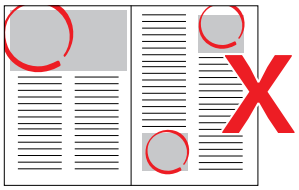
- The responsive nature of digital environments and devices make effective placement of the Save Circle challenging
- Use it to enhance communication and not detract from it.
- Limit useage instances over the entire communication – for example the section divider pages of a document.
- Overuse can reduce its effectiveness.



Grey denotes image area.

Schematic example – brochure spreads

## DON'T



**DON'T** use more than once on a single page or spread.
